Sent to members of NPD

I represent Rockhill Crest Neighborhood Association, and am a member of Crestwood Home Owners Association

I understand that ordinance 220936 while the posted agenda has it on hold, iust to be heard today

Be it known to you all that these folks led us to believe it was not to be heard, in fact they set a meeting fro 4 p.m. today to discuss it with the Paul Melnuck founder of Sana Lake.

Surprise today that it is being heard.

We who have been opposed are even more opposed to this zoning request. It has been done with a great deal of insincerity regarding engagement with the communities. As far as I know that opposition includes: UMKC, Rockhurst, South Town Council, 4963 neighborhood coalition, Rockhill Crest Neighborhood Assoc. and many, many member of the St. Francis Xavier Parish.

A rehab center is not what would benefit our enterprise or neighborhoods.
