I am proud of our city and, when I moved here 20 years ago from the Southwest, a big part of what drew me to KC was the greenspaces and roadways filled with trees. I am still proud to show off our city and its neighborhoods with big trees to my family and visitors. My family and I enjoy the trees in Roanoke Park and my midtown neighborhood daily. We help plant and water new trees to keep our neighborhood green and reduce heat in summertime.

Please support Ordinance 220961.

Thank you,
