- (iv) provide information from the Inventory about capacity (total numbers); and
- (v) provide information other than what is stated in (i)-(iii) above, subject to and as agreed between ParkMobile and the Client (e.g. handicap spots, loading zones, spots for electric vehicle).

The Inventory is in essence a 'snapshot' of the designated area(s) as of the implementation of Insights. ParkMobile is not responsible for differences between the Inventory and the actual areas or locations.

With the Parking Occupancy feature, Client will be able to visualize and predict the supply and demand of the Inventory in the Covered Area, based on algorithms that calculate the occupancy of on-street parking spots at a particular time and place. ParkMobile and Client may agree that any or all of the following be made available to ParkMobile Users through the Platform:

- (i) information related to the Inventory, like an overview of available on-street and/or off-street (as relevant) parking areas; and
- (ii) information and overview of the parking occupancy for the Inventory.

Parking Occupancy data will be gathered via the Scanners. In order to gather a sufficient amount of Parking Occupancy data, the parties will work together to develop an appropriate plan to ensure that Client receives the best value from Insights, which requires that the Insights Vehicles are driven regularly by Insights Drivers in certain areas and time periods for sufficient amounts of time. If Client does not adhere to such plan, the integrity and usefulness of the Parking Occupancy data may be compromised. The Insights Drivers will be driving the Insights Vehicles as part of their customary and regular duties on behalf of Client.

Client shall ensure that Insights Drivers and any employees and contractors who have custody of the Scanners shall use ordinary care to safeguard the Scanners from damage, theft and vandalism. ParkMobile will replace up to a maximum of five (5) Scanners in a contract year during the Term that have been damaged in the ordinary course of business, as determined by ParkMobile, upon notice and request by Client. In the event additional Scanners require replacement during the Term, ParkMobile may charge Client for a reasonable replacement cost, which is currently expected to be at or around \$350.00, but this amount is subject to change by ParkMobile at any time without notice. ParkMobile is at all times the sole owner of the Scanners and is merely loaning the Scanners to Client for the term of the Agreement for the limited and sole purpose of their use in providing Insights Data. ParkMobile retains its entire right, title, and interest in and to the Scanners, and nothing hereunder will be construed as transferring any right, title, or interest in the Scanners to Client or

any other person. ParkMobile is not responsible for any and all damage that may arise from the use and placement of the Scanners on the Insights Vehicles.

Upon termination or expiration of the Agreement, Client must return all Scanners to ParkMobile. If all Scanners are not returned to ParkMobile within thirty (30) days of termination or expiration of the Agreement, ParkMobile shall charge Client for a reasonable replacement cost per unreturned Scanner of \$350.00 each. This amount is subject to change in ParkMobile's sole discretion without notice.

No warranties are made for any singular event and/or prediction outcome or any information in or obtained from Insights. Neither ParkMobile nor its licensors is responsible for any errors or omissions, nor for the results obtained from the use of Insights.

Insights and the Insights Data is provided "as is", with no guarantee of completeness, accuracy, or timeliness of the results, and without warranty of any kind, express or implied, including, but not limited to warranties of performance, merchantability and fitness for a particular purpose. Notwithstanding the foregoing, ParkMobile will endeavor to put certain quality controls in place. The completeness, accuracy, and timeliness of the Insights Data is dependent, in part, on Client's efforts to adhere to an information-gathering plan as determined by the parties. ParkMobile is not responsible for any decisions, whether the decisions are business, financial, policy or otherwise, that Client may make in reliance on Insights Data. "Insights Data" means data and information related to the Insights product, including, but not limited to, the Parking Inventory and Parking Occupancy features.

Insights Data remains the sole and exclusive property of ParkMobile. ParkMobile grants Client a revocable, royalty-free, non-exclusive, non-assignable, non-transferable license to applicable Insights Data for the duration of the term only for Client's internal use in connection with Insights.
