to inspire transformational healing and empower generations of women and children to achieve recovery, reunification, and resilience. Entering our program, families are unhoused, most children are in foster care, and moms are in early recovery. Yet annually, through our long-term supportive housing program at 28th and Troost, we help over 150 women and children overcome the interconnected cycles of poverty, trauma, and substance use

150 to achieve multi-generation impact. The purpose of Benilde Hall's Housing and Comprehensive Services program is twofold: 1) to provide adult males experiencing homelessness with transitional housing and supportive services and 2) to address barriers (substance use disorder [SUD] and mental health) in securing permanent stable

170 housing.

Guadalupe Centers housing program provides an array of housing and housing related services that prevent homelessness and stabilize housing. Many families are employed but not earning a livable wage that supports housing expenses therefore they are at 200 risk of being displaced.

The purpose of the program is to prevent or eliminate homelessness and assist households in maintaining housing stability through provision of counseling and direct financial 50 assistance.

RS is requesting CDBG funding in 2025 to support the expansion of comprehensive homeless prevention services, all offered at no cost through the RS REVEAL Social and Mental Health Services Program. The purpose of the REVEAL Program is to promote increased individual and community stability, strength and health by expanding access to stabilizing homeless prevention and eviction relief services in tandem with strength-building social and

800 mental health services and community-building initiatives. 240 Homeless street outreach

The purpose of this program is to empower homeless mothers and their children to gain self-sufficiency. The proposed program will expand evidence-based treatment to reach more homeless, highly traumatized mothers and their children, will empower them to break the generational cycles of homelessness, poverty, addiction, abuse, and help them become and remain selfsufficient, actively contributing members of the community. In 160 2024, Sheffield Place will serve more than 160 families

The purpose of the Homeless Youth Campus (HYC) is to provide basic needs, emergency, transitional, and residential housing services, life skills education, trauma-informed care focused, case management and advocacy services in a safe, structured, nurturing environment for youth and young adults (birth-21) who have experienced various trauma due to abuse, neglect, violence, homelessness and/or lack positive adult relationships necessary

- 800 for healthy growth and development. Newhouse is requesting funding to continue delivering our four, supportive service pillars, emergency housing, education/childcare, advocacy and therapeutic healing services to survivors of domestic violence who have suddenly become
- homeless and must choose between living on the streets or 520 returning to their abuser's home.
