Daniel Finn
Phelps Engineering, Inc.
1270 N. Winchester
Olathe, KS 66061

Re: **CD-CPC-2025-00041** - A request to approve a major amendment to a previously approved Development Plan, which also acts as a Preliminary Plat, for Fareway Meat Market on about 1.7 acres generally located at 1307 W 79th St.

Dear Daniel Finn:

At its meeting on May 07, 2025, the City Plan Commission acted as follows on the above-referenced case.

Approved with Conditions

The Commission's action is only a recommendation. Your request must receive final action from the City Council. All conditions imposed by the Commission, if any, are available on the following page(s).

PLEASE READ CONDITIONS CAREFULLY as some or all of the conditions imposed may require action on your part to proceed to the next step.

- If revised plans are required, you must make such revisions and upload the revised plans prior to proceeding to final action.
- If revised plans are not required, your request will automatically be submitted for City Council consideration.

If you have any questions, please contact me at Ahnna.Nanoski@kcmo.org or (816) 513-8816.

Sincerely,

Ahnna Nanoski
Planning Supervisor

Plan Conditions

Report Date: May 12, 2025

Case Number: CD-CPC-2025-00041

Project: Fareway Meat Market Development Plan

Condition(s) by City Planning and Development Department. Contact Ahnna Nanoski at (816) 513-8816 / Ahnna.Nanoski@kcmo.org with questions.

1. Any fencing installed on the north, south, or west property lines is subject to 88-323-02-D.2.
2. No detailed sign plan was provided. All signage must comply with 88-445. Inspector to verify.
3. The developer shall submit an affidavit, completed by a landscape architect licensed in the State of Missouri, verifying that all landscaping and street trees required of the approved plan has been installed in accordance with the plan and is healthy prior to Certificate of Occupancy. This condition may be satisfied by an assigned City Planning and Development Building Inspector.
4. The developer shall submit an affidavit, prepared by an engineer licensed in the State of Missouri, verifying that all outdoor lighting has been installed in accordance with approved plans and that lighting levels do not exceed that shown on the approved lighting plan at the property lines prior to Certificate of Occupancy. This condition may be satisfied by an assigned City Planning and Development Building Inspector.
5. (Plans Review Condition) Building plans submittal shall meet the requirements of the Kansas City Building and Rehabilitation Code in effect at the time of submission.
6. The developer shall submit an affidavit, completed by an ISA certified arborist, an SAF certified forester, a professional engineer, or a landscape architect licensed in the State of Missouri, verifying that all trees preserved and all trees planted to meet mitigation required of the approved plan, whichever is applicable, has been installed or preserved in accordance with the plan and is healthy prior to Certificate of Occupancy.
7. Per 88-425-13, alternative compliance from the interior landscaping standards is granted by relocating trees and shrubs, per the approved landscape plan.
8. Trash containers, dumpsters, trash compactors, and recycling bins associated with both project phases shall comply with 88-425-08, details identified in building plans/permits.
9. The following corrections shall be resolved prior to the ordinance request.
 1. Update the parking table. Required bicycle parking spaces (total short-term and long-term) = 8. 4/24 Note: Is the development team requesting alternative compliance for two bicycle parking spaces? If so, plant 2 bushes native to Missouri on the site. Make a note of the alternative compliance request and how it is being satisfied on the bicycle parking and landscaping table.
 2. Identify the location and design of the bicycle parking per 88-420-09. 4/24: Correction unresolved (or staff needs assistance identifying the correct plan sheet).
 3. The outdoor lighting plan needs to be updated. Expand the photometric plan to cover the entire site and the spillover onto the right-of-way and/or adjacent residentially zoned property. Per 88-430-05-C, spillover light may not exceed 0.186 foot-candle onto R-zoned property or 1.0 foot-candle onto public rights-of-way measured at grade along the property line. Do not count city street lights in the proposed project's analysis. If a variance is being requested, submit a statement of practical difficulty. 4/24 Note: There is a very small portion of the eastern parking lot/curb cut that exceeds the spillover maximum. Does the development team want to revise plans or request a small variance?

Condition(s) by City Planning and Development Department. Contact Matthew Barnes at (816) 513-8817 / matthew.barnes@kcmo.org with questions.

10. That prior to issuance of any certificate of occupancy, the applicant submit and gain approval of a Final Plat in accordance with the Preliminary Plat.

Condition(s) by Fire Department. Contact Michael Schroeder at (816) 513-4604 / michael.schroeder@kcmo.org with questions.

11. • Buildings equipped with a fire standpipe system shall have an operable fire hydrant within 100 feet of the Fire Department Connection (FDC). (IFC2018 § 507.5.1.1)

Condition(s) by Fire Department. Contact Michael Schroeder at (816) 513-4604 / michael.schroeder@kcmo.org with questions.

12. • Fire hydrants shall be installed and operable prior to the arrival of any combustible building materials onto the site. (IFC-2018 § 501.4 and 3312.1; NFPA 241-2013 § 8.7.2)
 - Fire hydrant distribution shall follow IFC-2018 Table C102.1
13. • The developer shall meet the fire flow requirements as set forth in Appendix B of the project International Fire Code 2018. (IFC-2018 § 507.1)
14. • A required fire department access roads shall be an all weather surface. (IFC-2012: § 503.2.3) (No Grass Pavers Allowed)
15. • Fire Department access roads shall be provided prior to construction/demolition projects begin. (IFC-2018 § 501.4 and 3310.1; NFPA 241-2013 § 7.5.5)
16. • Required fire department access roads shall designed to support a fire apparatus with gross axle weight of 85,000 pounds. (IFC-2018: § 503.2.3)
17. • The turning radius for fire department access roads shall be 30 feet inside and 50 feet outside radius. (IFC-2018: § 503.2.4)

Condition(s) by Parks & Recreation. Contact Richard Sanchez at (816) 513-7678 / richard.sanchez@kcmo.org with questions.

18. Ward Parkway is classified as a Parkway; therefore, any new developments, façade changes, or additions as listed in the applicability section of 88-232-01-A, the property owner shall comply with the Parkway and Boulevard Standards or obtain a variance from the Board of Zoning Adjustments prior to obtaining a building permit.
19. Prior to construction adjacent to a Parks and Recreation jurisdictional street and/or park the developer and/or their representative shall obtain a Parks and Recreation permit for storage and restoration within a park or a Parks and Recreation jurisdictional street right-of-way including but not limited to the installation of construction trailer, stockpiling of materials or equipment, construction roads and utility cabinets/meters.
20. The developer shall submit plans to Parks & Recreation Department and obtain permits prior to beginning construction of streetscape improvements (including but not limited to sidewalks, curbs, gutters, streetscape elements, pedestrian and street lighting) on the Parks jurisdictional streets and construct improvements, ADA compliant ramps at all required locations where new private drives are being added, or where existing sidewalks are modified or repaired. Such improvements shall be installed per Parks & Recreation Department Standards
21. The developer shall submit a letter to the Parks and Recreation Department from a Licensed Civil Engineer, Licensed Architect, or Licensed Landscape Architect, who is registered in the State of Missouri, stating the condition of the sidewalks, curbs, and gutters along boulevard/parkway, which is a Parks and Recreation jurisdictional street. The letter shall identify state of repair as defined in Chapters 56 and 64 of the Code of Ordinances for the sidewalks, curbs, and gutters. It shall identify the quantity and location of sidewalks, curbs, gutters that need to be constructed, repaired, or reconstructed. The developer shall secure permits to repair or reconstruct the identified sidewalks, curbs, and gutters as necessary along all development street frontages, as required by the Parks and Recreation Department, prior to recording the plat/issuance of any certificate of occupancy permits including temporary certificate occupancy permits.

Condition(s) by Parks & Recreation. Contact Virginia Tharpe at / virginia.tharpe@kcmo.org with questions.

22. The developer shall be responsible for tree preservation in an easement or platted tract, mitigation planting, or payment of cash-in-lieu of preservation or mitigation planting, or any combination thereof in accordance with 88-424. Should the developer choose to pay cash-in-lieu of preservation or mitigation of all or a portion of the required area, the amount due shall be based upon the rate specified in 88-424. This requirement shall be satisfied prior to issuance of certificate of occupancy, or prior to the recording of the final plat, whichever occurs first.

Condition(s) by Public Works Department. Contact Terry Thomas at (816) 513-2510 / Terry.A.Thomas@kcmo.org with questions.

23. The developer shall submit verification of vertical and horizontal sight distance for the drive connection to public right-of-way to the Land Development Division and make improvements to ensure local jurisdiction and/or minimum AASHTO adequate sight distance standards are met, prior to issuance of any certificate of occupancy.
24. The developer shall submit a streetscape plan for approval and permitting by the Land Development Division prior to beginning construction of the streetscape improvements in the public right of way, and construct ADA compliant ramps at all required locations where new private drives are being added, or where existing sidewalks are modified or repaired.

Condition(s) by Public Works Department. Contact Terry Thomas at (816) 513-2510 / Terry.A.Thomas@kcmo.org with questions.

25. The developer shall integrate into the existing street light system any relocated existing street lights within the street right-of-way impacted by the new drive or approach entrances as required by the Land Development Division, and the relocated lights must comply with all adopted lighting standards.
26. After the City Plan Commission enters its disposition for the development plan, the developer shall not enter into any agreement that would encumber or otherwise have any impact on the proposed right-of-way dedications for the planned project without the prior written consent of the Land Development Division.
27. The developer shall submit plans to the Land Development Division and obtain permits to construct sidewalks along the platted frontage of Ward Parkway, W 79th Street and Mercier Street. In addition the developer shall construct associated ADA ramps at the proposed entrance drives as necessary for the type of drive approach.
28. The developer must subordinate to the City all private interest in the area of any right-of-way dedication, in accordance with Chapter 88 and as required by the Land Development Division, prior to issuance of any construction permits within said right-of-way, and that the owner/developer shall be responsible for all costs associated with subordination activities now and in the future.
29. The developer shall submit a letter to the Land Development Division from a Licensed Civil Engineer, Licensed Architect, or Licensed Landscape Architect, who is registered in the State of Missouri, that identifies sidewalks, curbs, and gutters in disrepair as defined by Public Works Department's "OUT OF REPAIR CRITERIA FOR SIDEWALK, DRIVEWAY AND CURB revised 11/5/2013" and based on compliance with Chapters 56 and 64 of the Code of Ordinances for the sidewalks, curbs, and gutters where said letter shall identify the quantity and location of sidewalks, curbs, gutters that need to be constructed, repaired, or reconstructed to remedy deficiencies and/or to remove existing approaches no longer needed by this project. The developer shall secure permits to repair or reconstruct the identified sidewalks, curbs, and gutters as necessary along all development street frontages as required by the Land Development Division and prior to issuance of any certificate of occupancy permits including temporary certificate occupancy permits.

Condition(s) by Water Services Department. Contact Heather Massey at (816) 513-2111 / heather.massey@kcmo.org with questions.

30. The developer shall have a water flow test done to ensure there is adequate water pressure to serve the development.
South of River contact - Patrick Lewis (816) 513-0423
North of River contact - David Gilyard (816) 513-4772
31. The developer shall ensure that water and fire service lines should meet current Water Services Department Rules and Regulations. Prior to issuance of Certificate of Occupancy. <https://www.kcwater.us/projects/rulesandregulations/>
32. Abandonment of services shall be performed under a Kill or a Disconnect Permit in the following manner:
 - (a) On tap service connections, the corporation stop shall be uncovered, the corporation stop turned off, the service line disconnected, and the threads cut off of the corporation. All curb boxes, meter tiles and backflow preventer vaults whether on public or private property, shall have all rings, covers, and lids removed, wall casings removed or broken down to a minimum of one foot below grade. The backflow vault shall be backfilled with sand, clean fill or an approved material.
 - (b) On branch service connections, the abandonment shall be performed in a manner specified by KC Water. Service lines shall be exposed at the main and KC Water called for an inspection. At this point the KC Water will advise either how to kill, or take over the kill. Normally the Licensed Master Plumber will be required to remove any tee or tap and associated valves and install a section of ductile iron pipe and solid sleeves in accordance with the Standards and Specifications for Water Main Extensions as published by KC Water.

Condition(s) by Water Services Department. Contact Philip Taylor at / philip.taylor@kcmo.org with questions.

33. The developer shall cause the area to be platted and processed in accordance with Chapter 88, Code of Ordinances of the City of Kansas City, Missouri, as amended, commonly known as the Development Regulations, by making application under said code for a Minor Subdivision and submitting and recording a Lot Consolidation Plat or replatting the property in accordance therewith.
34. The developer must submit a Macro storm drainage study with the first Plat or Phase, from a Missouri-licensed civil engineer to KC Water showing compliance with current adopted standards in effect at the time of submission, including Water Quality BMP's, to KC Water for review and acceptance for the disturbed area, and submit Micro storm drainage study with each subsequent Plat or Phase showing compliance with the approved Macro and adopted standards. The developer shall secure permits to construct any improvements as necessary to mitigate impacts from rate, volume, and quality of runoff from each proposed phase, prior to recording the plat or prior to issuance of a Building Permit, whichever occurs first as required by KC Water.

35. The developer must obtain the executed and recorded city approved grading, temporary construction, drainage/sewer, or any other necessary easements from the abutting property owner(s) that may be required prior to submitting any public improvements crossing properties not controlled by the developer and include said document(s) within the public improvement applications submitted for permitting.
36. The owner/developer must submit plans for grading, siltation, and erosion control to KC Water for review and acceptance, and secure a Site Disturbance permit for any proposed disturbance area equal to one acre or more prior to beginning any construction activities.
37. The developer shall submit an analysis to verify adequate capacity of the existing sewer system as required by KC Water prior to issuance of a building permit to connect private system to the public sewer main and depending on adequacy of the receiving system, make other improvements may be required.
38. The developer must secure permits to connect to public storm water conveyance systems to serve all proposed lots within the development and determine adequacy of receiving systems as required by KC Water, prior to recording the plat or issuance of a building permit whichever occurs first.
39. The developer must grant a BMP Easement to the City as required by KC Water, prior to recording the plat or issuance of any building permits.
40. The developer must enter into a covenant agreement for the maintenance of any stormwater detention area tracts as required by KC Water, prior to recording the plat. Storm detention areas that serve more than one lot must be platted in a separate detention tract.
41. The developer shall provide private storm drainage easements for any private mains prior to issuance of any building permits.
42. The developer shall provide Covenants to Maintain Private Storm Sewer Mains acceptable to KC Water for any private storm sewer mains prior to the issuance of any building permits.
