**Renewables Direct Participation Agreement**  
**Missouri Metro**  
**Addendum**

<b>WIND FARM ALLOCATION</b>	
Name of Farm	<b>Expedition</b>
Developer	<b>NRS</b>
Location	<b>Marion County, KS</b>
Nameplate Capacity (MW)	<b>150</b>
In Service Date	<b>10/2021</b>
Term	<b>20</b>
PPA (\$/MWh)	<b>\$16.04</b>
Subscription Charge (SC) (20 year)	<b>\$16.14</b>

The City of Kansas City, Missouri will be purchasing electric energy that is generated by the Expedition Wind Farm developed by NRS and located in Marion County, KS.

The Expedition Wind Farm will be in service in October, 2021. The City of Kansas City, Missouri is enrolled in a 20-year term and will receive a Renewable Adjustment (RA) in the form of an additional charge or credit to your standard bill based upon the sale of the metered output of the Expedition Wind Farm into the wholesale market and your agreement to the Subscription Charge (the SC), which is the delivered price per MWh of the Resource plus the Company Administration Charge of \$0.10/MWh for twenty-year Participation Agreements. The RA may be applied to your bill up to 60 days later than the wholesale market transactions to allow for settlement and data processing.
