Is it good for the children?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

How will this contribute to a sustainable Kansas City?	<p>This project consists of public and private improvements for a 4 lot single-family residential development, on previously undeveloped property. Individual on-site facilities will reduce the overall storm water volume and attenuate the peak runoff rate to less than existing conditions. Modern and safe, walkable streets with sidewalks, curb and gutter and street lights will be constructed. New sanitary sewers will be constructed that will minimize infiltration and inflow within the system conveyed to the treatment facility. Homeowners must adhere to the codes, covenants and restrictions prepared for the project to assure ongoing maintenance and upkeep of their personal residences and common properties. This development will increase the tax base for the developed lots.</p> <p>Written by Brett A. Cox, PE</p>
