Dear NPD Committee,

As an officer of a local native plant group, a citizen of Kansas City, Missouri and the owner of property with native plant gardens, I support the proposed ordinance 250637.

It wholly aligns with the City's Climate Protection & Resiliency Plan and allows for the planting and maintenance of ecosystems that will benefit the city and state.

I would ask that the committee pas this ordinance and put it before the full council for approval.

Please feel free to contact me should you have any questions.

Thank you for your time and your consideration of the proposal.

Kurt Hoeper
VP Wild Ones KC
816-416-6081.
