PLAN REVIEW

The applicant is proposing to rezone a 0.14-acre property from district R-2.5 (residential 2.5) to district O (office) and is also proposing an area plan amendment to the Truman Plaza Area Plan from Residential Low Density to Mixed Use Neighborhood. The rezoning and area plan amendment will allow the existing structure to be used and maintained.

The property previously received approval for two special use permits; the first allowed a multi-unit house in a mixed-use building, and the second allowed for a 700 square foot neighborhood serving retail. While the property is surrounded by R-2.5 zoned lots, according to the Sanborn maps from 1940, the building has consistently been used in a commercial way.

SPECIFIC REVIEW CRITERIA

Zoning and Development Code Map Amendments, Rezoning (88-515-08)

In reviewing and making decisions on proposed zoning map amendments, the City Planning and Development Director, City Plan Commission, and City Council must consider at least the following factors:

A. Conformance with adopted plans and planning policies;

The Truman Plaza Area Plan recommends Residential Low Density for this location, the applicant is requesting an amendment to the area plan to Mixed Use Neighborhood. The applicant will be compliant with adopted plans and planning policies should both the area plan amendment and the rezoning be approved.

B. Zoning and use of nearby property;

All surrounding properties are zoned R-2.5. The properties to the north and west are residential properties. To the south is the Mattie Rhodes Center (a cultural exhibit use) and to the east is James Elementary School.

C. Physical character of the area in which the subject property is located;

The subject property is located in a primarily residential neighborhood. The proposed rezoning and area plan amendment are not expected to change the physical character of the area.

D. Whether public facilities (infrastructure) and services will be adequate to serve development allowed by the requested zoning map amendment;

Public facilities and services will be adequate to serve the development allowed by the rezoning request.

E. Suitability of the subject property for the use to which it has been restricted under the existing zoning regulations;

The subject property is zoned R-2.5 however the building on the property has always been used in a commercial nature, therefore the existing zoning has restricted what uses can occur on the property. The rezoning will allow for the property to be used in neighborhood serving uses and office uses.

F. Length of time the subject property has remained vacant as zoned;

The subject property has an existing two-story building on it, the building has been vacant for at least 3 years, during which time the applicant has started renovations and is working on completing entitlement for the property.

G. The extent to which approving the rezoning will detrimentally affect nearby properties; and

It is in the best interest of the community to have the property maintained and reused. The rezoning will not detrimentally affect nearby properties as the proposed rezoning is to Office. The Office Zoning District is limited to neighborhood serving uses and office, any more intense uses allowed in the zoning district will require proper entitlement.

H. The gain, if any, to the public health, safety, and welfare due to denial of the application, as compared to the hardship imposed upon the landowner, if any, as a result of denial of the application.

Should the application result in a denial, the building would most likely remain empty.
