

City of Kansas City, Missouri

Docket Memo

Ordinance/Resolution #: 260091

Submitted Department/Preparer: Health

Revised 6/10/24

Docket memos are required on all ordinances initiated by a Department Director. More information can be found in [Administrative Regulation \(AR\) 4-1](#).

Executive Summary

Accepting and approving a two month contract extension with the Missouri Department of Health and Senior Services for a comprehensive Disease Intervention Specialist Workforce program; estimating and appropriating an additional \$69,946.33 for the fourteen month sum of \$489,624.33; designating requisitioning authority; and recognizing this ordinance as having an accelerated effective date.

Discussion

The contract provides funding support for 4.6 FTE Disease Investigation Staff (DIS) at Kansas City Health Department. The primary role of the DIS is to identify persons with STDs and link them and their partners to care and treatment through targeted and effective disease investigation and interventions. DIS staff play a vital role in notifying members of the community of potential exposures and connecting those in need to Health Department resources like testing and treatment. DIS can also provide maternal case management for congenital syphilis and HIV cases.

STI's remain a substantial health challenge facing both Kansas City and the United States as a whole. Reported cases of chlamydia, gonorrhea and syphilis increased over the last 5-6-year period. These infections remain common, costly and challenge the health and wellness of millions of people across the United States. Congenital syphilis (transmitted from mother to newborn) has significantly increased nationwide since 2015, while KCMO reported 2 cases in 2019, 7 cases in 2020 and 9 cases in 2022 and 2023. And

The impact of the STD/STI epidemic does not fall equally across all populations and regions. Adolescents and young adults, men who have sex with men and pregnant women are disproportionately impacted by STDs/STIs. Social determinants of health contribute to an unequal burden of STDs/STIs in Black American, Indian/Alaska Native, and Hispanic communities. and

STD/STI rates per 100,000 population in Kansas City continue to exceed the national objectives for gonorrhea, chlamydia and syphilis. This grant provides for funding to continue KCHD's comprehensive STD/STI program to address focused testing and treatment efforts as well as to conduct primary prevention. Funds also provide for partner services which involves interviewing cases for individuals that may have been exposed and could benefit from testing and treatment if necessary.

Fiscal Impact

1. Is this legislation included in the adopted budget? ☐ Yes ☒ No
2. What is the funding source?
Health Grants Fund - 2480-505414-G50240926
3. How does the legislation affect the current fiscal year?
This legislation estimates and appropriates funding in the current fiscal year
4. Does the legislation have a fiscal impact in future fiscal years? Please notate the difference between one-time and recurring costs.
No
5. Does the legislation generate revenue, leverage outside funding, or deliver a return on investment?
Leverage outside funding

Office of Management and Budget Review

(OMB Staff will complete this section.)

1. This legislation is supported by the general fund. ☐ Yes ☒ No
2. This fund has a structural imbalance. ☐ Yes ☒ No
3. Account string has been verified/confirmed. ☒ Yes ☐ No

Service Level Impacts

The receipt of this funding from this contract will allow the KCHD to continue providing quality care to the patients seeking these specific services from the department. Early detection and treatment can help prevent future infections and improve health outcomes for affected members of the community.

Other Impacts

1. What will be the potential health impacts to any affected groups?
Sexually transmitted infections (STIs) affect people of all races and ethnicities, but disproportionately affect racial and ethnic minorities.
2. How have those groups been engaged and involved in the development of this ordinance?
No
3. How does this legislation contribute to a sustainable Kansas City?

Contributes to the department's DIS Workforce program sustainability by providing funding that results in the provision of a comprehensive STD/STI program that provides enhanced, quality medical assistance to those residents experiencing applicable medical conditions.

4. Does this legislation create or preserve new housing units?
No (Press tab after selecting)
