PLAN REVIEW

No plan submittal is required for this application type, however the applicant did provide a set of plans for the proposed project. Staff did not review the plan set, and only reviewed the rezoning and area plan amendment request. The applicant is looking to use the property for an artisan manufacturing use. The proposed use requires a rezoning to district B1-2, the applicant has combined the three properties as requested by staff in preparation for the rezoning.

SPECIFIC REVIEW CRITERIA

Zoning and Development Code Map Amendments, Rezoning (88-515-08)

In reviewing and making decisions on proposed zoning map amendments, the City Planning and Development Director, City Plan Commission, and City Council must consider at least the following factors:

A. Conformance with adopted plans and planning policies;

The applicant is seeking to amend the Midtown/Plaza Area Plan to Mixed Use Neighborhood to better match the proposed future land use. Should the rezoning and area plan amendment be approved the property will be in compliance with adopted plans and planning policies.

The Long Range Planning Division stated the following, *“The rezoning without a plan for 608 E 34th St. adheres to the Midtown/Plaza plan and is **likely** to advance KC Spirit Playbook goals. The building at this site was clearly originally intended for commercial use. To preserve the buildings, it is appropriate to*

rezone this property out of the residential zoning and amend the future land use. Mix Use Neighborhood most appropriately corresponds to the B1 zoning.” – Luke Ranker

B. Zoning and use of nearby property;

The surrounding properties are zoned and used residentially. The Academie Lafayette is located south west of the property.

C. Physical character of the area in which the subject property is located;

The area the subject property is located in is fully established residential neighborhood with an existing school.

D. Whether public facilities (infrastructure) and services will be adequate to serve development allowed by the requested zoning map amendment;

Not applicable as this is a rezoning without plan and area plan amendment. The applicant will need further permitting from the City.

E. Suitability of the subject property for the use to which it has been restricted under the existing zoning regulations;

The design and site placement of the buildings imply the buildings were meant to be used commercially. Additionally, historical pictures of the site show the commercial nature of the property, see attachment 1. The subject property is not suitable for the use to which it has been restricted to under the existing zoning regulations.

F. Length of time the subject property has remained vacant as zoned;

The subject property has been vacant for approximately 10 years.

G. The extent to which approving the rezoning will detrimentally affect nearby properties; and

The rezoning will not detrimentally affect the nearby properties, the rezoning allows for uses that are typically found in a neighborhood setting and contributes to the comfort and convenience of the public. Additionally, the intensity designator ensures that any future developments have a limited building height to preserve the character of the neighborhood.

H. The gain, if any, to the public health, safety, and welfare due to denial of the application, as compared to the hardship imposed upon the landowner, if any, as a result of denial of the application.

Should the application be denied, the structures on the property would most likely remain vacant.
