Discussion

The City of Kansas City, Missouri (KCMO) Health Department's Aim4Peace Program (A4P) has been working to reduce violence in KCMO the east patrol using the Cure Violence Model for 15 years. Aim4Peace has achieved success, in designated areas, in reducing shootings and homicides with its violence case management and mediation services. These funds would expand the work into various neighborhoods in the urban core with particular attention within the KCMO Police Department's East Patrol Division. Beneficiaries are urban core residents, primarily Black, Indigenous, and people of color (BIPOC) and lower-income households. The funds will support work to assist in preventing violence in diverse communities by increasing the organization's capacity to case manage high-risk individuals who have been impacted by violence.

Aim4Peace will support implementation of two Violence Prevention Neighborhood Outreach Teams in the East Patrol Division. Aim4Peace programming aims to remove barriers to access and opportunity for the targeted BIPOC communities served. Outcomes with primary activities include: strengthening the existing multidisciplinary teams (Violence Free Kansas City and KC 360), implementing violence reduction strategies mentioned in the 2020 Blueprint, and providing case management services to high-risk individuals within designated areas.
