

City of Kansas City, Missouri

Docket Memo

Ordinance/Resolution #

Submitted Department/Preparer: Health

Docket memos are required on all ordinances initiated by a Department Director. More information can be found in [Administrative Regulation \(AR\) 4-1](#).

Executive Summary

Accepting and approving two grant awards with the Missouri Department of Health and Senior Services to provide funding for the City's Public Health Preparedness and Cities Readiness programs; and designating requisitioning authority.

Discussion

Since public health threats are always present, being prepared to prevent, respond, and rapidly recover from these types of events can save lives and protect the safety of our citizens.

This grant funding helps cover the planning functions and equipment needed to develop two unique public health operations, each of which focuses on different planning functions.

Public Health Preparedness (PHP):

The PHP (base) program allows for the planning, maintenance, and sustainability of the Kansas City Health Department's (KCHD) response capability and capacity so that the KCHD can effectively manage all types of Public Health emergencies using an "all hazard" approach.

It allows for the development and execution of plans for mass sheltering, mass patient care, large venue public health events and clinics.

PHP program operations also the KCHD to actively respond with local, regional, and national first responder (Police Fire, EMS) agencies in a coordinated response to events that may have a Public Health impact.

The program supports and maintains the KCHD's 24/7/365 Duty Officer notification system allowing the KCHD to receive, process, and respond to public health requests of an emergent nature.

Cities Readiness Initiative (CRI):

The CRI builds off the PHP base program in the effort to enhance and expand the public health response capacity while building a more focused approach to large scale medication dispensing and vaccination operations.

CRI program measures and evaluates the KCHD's plan regarding its ability to provide mass medication dispensing to the entire City of Kansas City's population within 24-48 hours.

Dispensing operations focus on the concepts of "Open" and "Closed" Points of Dispensing (POD)

Open PODS are those large scale public focused operations while Closed PODS are those operations that are pre-arranged with large business and or other organizations.

Service Level Impacts

The receipt of this contract's funding allows the KCHD to continue its planning and response efforts, which better prepares the department for a response to a public health emergency in an effective and efficient manner using an all-hazards approach. Having such plans developed helps not only the longer-term operations of the department but also enhances the day-to-day operations of the KCHD.

Operational plans, equipment and supplies that are developed/procured from these funds continue to be relied upon and enhance everyday operations at the KCHD.

Other Impacts

1. What will be the potential health impacts to any affected groups?

All citizens and visitors of the City of Kansas City will benefit from the enhanced abilities that are developed by the KCHD during a public health emergency.

2. How have those groups been engaged and involved in the development of this ordinance?

No

3. How does this legislation contribute to a sustainable Kansas City?

This funding will assist in the continuation of emergency public health preparedness and response functions to the citizens, businesses, and visitors of the city.

4. Does the ordinance/resolution include Civil Rights antidiscrimination requirements in compliance with the Code of Ordinances (Chapter 38, titled "Civil Rights")?

Yes

City of Kansas City, Missouri
