

City of Kansas City, Missouri

Docket Memo

Ordinance/Resolution #: 240367

Submitted Department/Preparer: Health

Revised 11/01/23

Docket memos are required on all ordinances initiated by a Department Director. More information can be found in [Administrative Regulation \(AR\) 4-1](#).

Executive Summary

Accepting and approving a \$78,792.00 grant award amendment from the Missouri Department of Health and Senior Services that provides funding for a comprehensive human immunodeficiency virus (HIV) surveillance program in the Kansas City, Missouri area; estimating and appropriating \$78,792.00 in the Health Grants Fund; designating requisitioning authority; and recognizing this ordinance as having an accelerated effective date.

Discussion

HIV surveillance is responsible for identifying and coordinating the reporting of HIV disease in a seven-county region of Missouri. Routine contact with physicians, hospitals and laboratories facilitates their reporting, and the aggregate numbers are returned to the community as statistical reports which support numerous grant applications and prevention activities. HIV surveillance provides the data and statistical information needed to apply and maintain funds that support Ryan White activities that assist those living with HIV in the Kansas City metropolitan area.

Fiscal Impact

1. Is this legislation included in the adopted budget? ☒ Yes ☐ No
2. What is the funding source?
Health Grants Fund – 2480-505077-G50507725
3. How does the legislation affect the current fiscal year?
This legislation estimates and appropriates grant funding in the current fiscal year.
4. Does the legislation have a fiscal impact in future fiscal years? Please notate the difference between one-time and recurring costs.
No.

5. Does the legislation generate revenue, leverage outside funding, or deliver a return on investment?
Leverage outside funding.

Office of Management and Budget Review
(OMB Staff will complete this section.)

1. This legislation is supported by the general fund. ☐ Yes ☒ No
2. This fund has a structural imbalance. ☐ Yes ☒ No
3. Account string has been verified/confirmed. ☒ Yes ☐ No

Additional Discussion (if needed)
N/A

Citywide Business Plan (CWBP) Impact

1. View the [FY23 Citywide Business Plan](#)
2. Which CWBP goal is most impacted by this legislation?
Housing and Healthy Communities (Press tab after selecting.)
3. Which objectives are impacted by this legislation (select all that apply):
- ☐ Utilize planning approaches in neighborhoods to reduce blight, ensure sustainable housing, and improve resident wellbeing and cultural diversity.
 - ☐ Maintain and increase affordable housing supply to meet the demands of a diverse population.
 - ☒ Address the various needs of the City's most vulnerable population by working to reduce disparities.
 - ☐ Foster an inclusive environment and regional approach to spur innovative solutions to housing challenges.
 - ☒ Ensure all residents have safe, accessible, quality housing by reducing barriers.
 - ☐ Protect and promote healthy, active amenities such as parks and trails, play spaces, and green spaces.

Service Level Impacts

Many public health programs are funded based on the needs of the community and impact upon individual citizens and high-risk groups. This program allows for direct analysis of data surrounding those living with HIV and how to best provide the available resources (case management, medications housing, transportation) to those individuals.

Other Impacts

1. What will be the potential health impacts to any affected groups?

Case surveillance data provide the basis for our understanding of the burden of disease and are used to guide public health action at the federal, state, and local levels. Knowing how many people are diagnosed with HIV infection each year—and the stage of disease at diagnosis—is important for planning and resource allocation and for monitoring trends and disparities between groups. Laboratory data (e.g., viral load and CD4 counts) are essential for monitoring whether people are receiving the vital HIV medical care services they need to live long, healthy lives and reduce transmission to others. With these data, state and local level staff can identify people with HIV who may not be receiving care and help them to return to care.

2. How have those groups been engaged and involved in the development of this ordinance?

HIV Surveillance provides data to groups such as the HIV Prevention and Care Planning Council which actively engages people living with HIV/AIDS, service providers, community leaders and public health officials. They work to reduce HIV infection while providing services that ensure the highest quality of life for all persons affected by HIV, including persons who are typically under-served or not served at all.

3. How does this legislation contribute to a sustainable Kansas City?

Promoting economic vitality, social equality and environmental quality in addressing public health initiatives is often times dependent upon federal, state and local funding; however, the goal of these programs is to promote and protect all citizens of Kansas City on a continuing, ongoing and sustainable basis.

4. Does this legislation create or preserve new housing units?
No (Press tab after selecting)

5. Department staff certifies the submission of any application Affirmative Action Plans or Certificates of Compliance, Contractor Utilization Plans (CUPs), and Letters of Intent to Subcontract (LOIs) to CREO prior to, or simultaneously with, the legislation entry request in Legistar.

No - CREO's review is not applicable (Press tab after selecting)
Please provide reasoning why not:

6. Does this legislation seek to approve a contract resulting from an Invitation for Bid?

No(Press tab after selecting)

7. Does this legislation seek to approve a contract resulting from a Request for Proposal/Qualification (RFP/Q)?
No(Press tab after selecting)
