Fidelity Security Life does not need 15 yr worth of TIF that takes money away from KCMO schools. Ten years at most should be adequate. Why they even need a parking garage is beyond comprehension since that lot is surrounded by parking and will have the streetcar on one side. Do they think no one will use the streetcar? If the surrounding parking is owned by someone else they should work out a deal to rent part of it. KCMO really needs to demand that parking gets used at all hours and isn't closed to the public.

Thanks!

Best regards,
