Hello to all of you, and thank you Robert for your email and the additive comments from many of you.

I look forward to meeting with you in a couple of weeks, but in the meantime let me allay your fears about the future of the Washington Street properties. We have sold the properties, after a competitive bidding process, to Doug Weltner of Weltner Equities. I know that many if not all of you have gotten to know Doug over the years as he has had projects in the neighborhood.

We had bids from Doug and Ken Block, and the Westport Today board was very mindful of the issues you raised in your email as they considered the bids. In the end, the Westport Today board decided to sell to Doug Weltner because he proposed the development of a townhouse project, similar in aesthetic to the Plaza Heights homes. Mr Block was proposing an apartment project, additive to his current project, at a much higher density and scale.

Our Westport Today Board focuses first and foremost on being a good neighbor and landowner in the neighborhood, and we are intent on stewarding our properties in a way that strengthens the neighborhood, not in a way that merely maximizes our returns.

I encourage you to contact Doug and talk with him about his plans, I know that we would be more than willing to discuss this with you.

Thanks again, and I look forward to seeing you later this month,

Mike

Subject: Sale of properties: 4438-4450 Washington

WARNING: This message originated from outside of SLHS' email system. DO NOT click links or open attachments unless you recognize the sender (plazawestport.association@gmail.com) and know the content is safe.

Dear Mike,

We are looking forward to meeting with you Feb 18 about several matters of mutual concern.

Right now I am writing about the properties that are for sale on Washington St: 4438-4450. We are aware that there are several contenders for the property, and we wish you well in the sales process. However, speaking on behalf of the neighborhood, which has discussed recent and future development at length, we want to voice our concern and preference for the type of development for that property.

Acknowledging that Westport Today has every right to do as it sees fit, the PWNA's position on future development is that we support single-family residence projects, and for now we will oppose multifamily and large office projects. We have

spoken to both Councilpersons about this stance, who are cc'd.

To date, the neighborhood has struggled mightily with the damage, inconvenience, and density that major development brings. In addition, the neighborhood needs time to recover from recent and current development, and we need to see how those projects will affect infrastructure, traffic, and parking. We are also advocating for a comprehensive traffic study before any new large development is approved by the City.

The stock of single-family dwellings has dwindled significantly over the past decade in the Plaza Westport area with the construction of large apartment complexes. As you well know, home ownership is a significant driver of neighborliness, and one of the reasons the PW area is attractive is its distinctive neighborhood feel. The purpose of the PWNA is to preserve and improve the quality of life in our neighborhood, and our prime directive is to preserve and improve single-family residences.

Given this, we encourage WT to take our concerns and interests to heart and use the sale of the Washington properties to bolster single-family (single dwelling or townhouse, etc) residences in the neighborhood. Please sell the Washington properties to a developer who will commit to building single-family dwellings.

The PWNA appreciates your consideration of this important issue, and we eagerly anticipate productive collaborations in the future.

All the best,
Robert

Robert Martin
