Share Your Story!

Community members are invited to share personal experiences and stories of harm with the Research Team, after the main session.

Connect & Learn!

Enjoy light snacks while we connect and learn about resources that are available in the community.

We Want to Hear From You!

We are asking Kansas City residents to **share the stories** of how the city has impacted their lives and how Reparations could work to repair those harms in five key areas:

Health • Economics • Criminal Justice • Housing • Education

Individuals are invited to share their personal narratives, specifically highlight instances where residents, or members of their families or neighborhoods, felt they had been negatively affected or experienced harm due to actions, policies, or oversights by the city.

Your Voice Matters. We Want to Hear From You!
