Hello,

I am writing to express my grave concern regarding the development at Brighton Road and Pleasant Valley Road that is under consideration. I live in Charleston Harbor and my neighborhood property values would be severely and negatively affected by such commercial development in a wholly residential area such as this. It is the serene and rural nature of our area that drew me to buy property here and I do not want to see it destroyed by high traffic, noise and the increased crime that would inevitably accompany such high rise buildings, whether they be apartments or townhomes, and retail, particularly a gas station. I am joining my neighbors, all of whom I've heard speak of this development negatively, in pleading that you do NOT approve the plan to develop the southwest corner of that intersection.

Thank you,

Jerusha L White, Esq.
Attorney at Law, retired.
