Hi there,

My name is Kenzie Wolfe, I've live in KCMO for about 5 years now after I came here for college. I now own a home in South KC. I recently learned about this ordinance. I absolutely support changing the ordinance to allow for native plants to be gardened. These plants attract beneficial insects that help decrease pest issues which affect my neighborhood a lot. They also help with storm water retention and decrease erosion. There's so many good reasons to support this proposal. As a resident I really hope this will be passed.

Thank you for your time and consideration,
Kenzie Wolfe
