To City Council Members

I am a 5th district resident. I am asking for a vote yes on the Climate Protection and Resiliency Plan without any amendments or changes that weaken the plan and make good on the promise delivered in 2021 when the Climate Emergency resolution was passed.

With the upcoming official passage of the federal Inflation Reduction Act, Kansas City has every incentive to move forward with an aggressive climate plan that will be reflected in the CPRP if passed-as is. I'm excited to see Kansas City pass a framework that endorses green social housing, closing the Hawthorn Coal Plant, maximizing convenient and accessible public transit, and electrifying our homes and buildings to protect the most vulnerable people. As written now, this plan better reflects the people of Kansas City, not fossil fuel executives or their friends, therefore it must pass in full, without any industry-backed amendments intended to water down the will of the community. We are counting on you to pass the CPRP and give us a livable future.

Passing the Climate Protection and Resiliency Plan as currently written is one of the most critical long-term investments Kansas City can make towards an equitable and sustainable future. Please vote yes without changes and without delay.

Thank you,
Elizabeth Davis
KCMO 5th District Representative
