Subject: Climate Action Plan
Date: Wednesday, August 17, 2022 4:35:54 PM

I urge the City Council to pass Resolution 220596 with no weakening amendments. As a mom, as a facility manager, as a citizen, I feel the need to push for the strongest actions we can take to counter a changing climate. I have given input over the last six months as the climate plan has evolved and urge Kansas City to come out strong and be an example for the surrounding cities in the metro when it comes to climate action.

We need this now.

Respectfully,

Anna Graether
