Subject: Res. 220596
Date: Tuesday, August 23, 2022 11:41:14 PM

Hello -

My name is Magali Rojas, and I am a concerned citizen. I would like to vote yes on resolution 220596. We are facing a climate crisis and it is crucial that the heart of the United States does not idle as other states are moving forward with climate actions. President Biden recently passed the Infrastructure Bill, which means we have momentum to build Kansas City, which has so much potential to become innovative and resilient. As you consider this action you must not forget that environmental Justice should be at the forefront. Climate change is disproportionately affecting people of color, children, women, low to moderate income households, the elderly, people with limited mobility, indigenous tribes, and those with limited access to education. It is time we lift the people and do what is right for the sake of our planet and livelihood.

Your future generations depend on this.

-Magali
