Re: **CD-CPC-2022-00168** - A request to approve a Development Plan in proposed District B4-1 on about 5 acres generally located at the northeast corner of East 134th Street and Charlotte Street.

Dear Rachelle Biondo:

At its meeting on November 15, 2022, the City Plan Commission acted as follows on the above-referenced case.

Approved with Modifications

Modifications:

1. Delete Condition 11
2. Clarify that Condition 9 is for the purposes of a garage
3. Add "if development were to occur on the eastern side of the lot" to Conditions 24 & 25

The Commission's action is only a recommendation. Your request must receive final action from the City Council. All conditions imposed by the Commission, if any, are available on the following page(s).

PLEASE READ CONDITIONS CAREFULLY as some or all of the conditions imposed may require action on your part to proceed to the next step.

- If revised plans are required, you must make such revisions and upload the revised plans prior to proceeding to final action.
- If revised plans are not required, your request will automatically be submitted for City Council consideration.

If you have any questions, please contact me at matthew.barnes@kcmo.org or (816) 513-8817.

Sincerely,

A handwritten signature in black ink, appearing to read "Matthew Barnes".

Matthew Barnes
Planner

Plan Conditions

Report Date: November 16, 2022

Case Number: CD-CPC-2022-00168

Project: Fishtech Phase III

Condition(s) by City Planning and Development Department. Contact Matthew Barnes at (816) 513-8817 / matthew.barnes@kcmo.org with questions.

1. The developer shall submit an affidavit, completed by a landscape architect licensed in the State of Missouri, verifying that all landscaping required of the approved plan has been installed in accordance with the plan and is healthy prior to Certificate of Occupancy.
2. That the use of the property be restricted all uses allowed under the B1 Zoning district with the addition of Indoor Vehicle Storage.
3. That the applicant dedicate Right of Way and revise plans for the proposed 134th Street Connection to Blue Ridge Boulevard by general warranty deed prior to obtaining a certificate of occupancy. This Right of Way must align with that already dedicated by Forest Ridge Villas to the south.
4. That all signage shall conform to 88-445 and shall require a sign permit prior to installation.
5. That the parcels be consolidated into one lot through either a Minor Subdivision Lot Consolidation or consolidated by deed with the County's Recorder of Deeds prior to filing for building permits.

Condition(s) by City Planning and Development Department. Contact Terry Thomas at / Terry.A.Thomas@kcmo.org with questions.

6. The developer shall submit a Storm Drainage analysis from a Missouri-licensed civil engineer to the Land Development Division evaluating proposed improvements and impact to drainage conditions. Since this project is within a "Combined Sewer Overflow" (CSO) district, the project shall be designed to retain rainfall of 1.5 inch depth over the entire site to simulate natural runoff conditions and reduce small storm discharge to the combined sewer system. Manage the 10-year storm and 100-year storm per currently adopted APWA standards. The analysis shall be submitted, and the developer shall secure permits to construct any improvements required by the Land Development Division prior to recording the plat.
7. The developer must obtain the executed and recorded city approved grading, temporary construction, drainage/sewer, or any other necessary easements from the abutting property owner(s) that may be required prior to submitting any public improvements crossing properties not controlled by the developer and include said document(s) within the public improvement applications submitted for permitting
8. The developer must integrate into the existing street light system any relocated existing street lights within the street right-of-way impacted by the new drive or approach entrances as required by the Land Development Division, and the relocated lights must comply with all adopted lighting standards.
9. The developer must pay impact fees as required by Chapter 39 of the City's Code of ordinances as required by the Land Development Division for the purposes of a garage.
10. The developer must provide an erosion hazard analysis for areas where any improvements or public right-of-way dedications are proposed within stream buffer zones or adjacent to the outside of stream meanders as required by Water Services.
11. The owner/developer must submit plans for grading, siltation, and erosion control to Land Development Division for review and acceptance, and secure a Site Disturbance permit for any proposed disturbance area equal to one acre or more prior to beginning any construction activities.
12. The developer must show the limits of the 100-year floodplain plus the 1 foot freeboard on the final plat and show the Minimum Low Opening Elevation (MLOE) of any structure on each lot that abuts a 100-year flood prone area (including detention basins and engineered surface drainage conveyances) on any plat and plan, as required by the Land Development Division.
13. The developer shall cause the area to be platted and processed in accordance with Chapter 88, Code of Ordinances of the City of Kansas City, Missouri, as amended, commonly known as the Development Regulations.

Condition(s) by City Planning and Development Department. Contact Terry Thomas at / Terry.A.Thomas@kcmo.org with questions.

14. The developer shall submit an analysis to verify adequate capacity of the existing sewer system as required by the Land Development Division prior to issuance of a building permit to connect private system to the public sewer main and depending on adequacy of the receiving system, make other improvements may be required.

Condition(s) by Fire Department. Contact Michael Schroeder at (816) 513-4604 / michael.schroeder@kcmo.org with questions.

15. Fire hydrant distribution shall follow IFC-2018 Table C102.1

Fire hydrants shall be installed and operable prior to the arrival of any combustible building materials onto the site. (IFC-2018 § 501.4 and 3312.1; NFPA -2013 § 8.7.2)

16. The project shall meet the fire flow requirements as set forth in Appendix B of the International Fire Code 2018. (IFC-2018 § 507.1)
17. Dead end fire department access road(s) in excess of 150 feet shall be provided with an approved turn around feature (i.e., cul-de-sac, hammerhead). Dead-end streets in excess of 150 feet in length resulting from a “phased” project shall provide an approved temporary turn around feature (i.e., cul-de-sac, hammerhead). (IFC-2018: § 503.2.5)
18. A required fire department access roads shall be an all weather surface. (IFC-2012: § 503.2.3)

Fire Department access roads shall be provided prior to construction/demolition projects begin. (IFC-2018 § 501.4 and 3310.1; NFPA 241-2013 § 7.5.5)

Required fire department access roads shall designed to support a fire apparatus with gross axle weight of 85,000 pounds. (IFC-2018: § 503.2.3)

Condition(s) by Water Services Department. Contact Heather Massey at (816) 513-2111 / heather.massey@kcmo.org with questions.

19. The developer shall ensure that water and fire service lines should meet current Water Services Department Rules and Regulations. Prior to C of O.
<https://www.kcwater.us/wp-content/uploads/2022/05/2022-Rules-and-Regulations-for-Water-Service-Lines-Final.pdf>
20. The developer shall have a water flow test done to ensure there is adequate water pressure to serve the development.
South of River contact – Sean Allen - 816-513-0318
North of River contact Pedro Colato – 816-513-4892
21. Branch service lines one-and-one-half inches and larger in diameter for domestic water services or fire protection lines shall be connected to the main by cutting in a minimum 6” branch service tee, installing three gate valves, and two solid sleeves on the main. Line valves on the main shall be the same nominal size as the main.

Condition(s) by Water Services Department. Contact Lucas Kaspar at (816)513-2131 / Lucas.Kaspar@kcmo.org with questions.

22. Combine the two lots by method acceptable to LDD and DMD.
23. The developer shall submit a Preliminary Stream Buffer plan prior to approval of the plan in accordance with the Section 88-415 requirements if development were to occur on the eastern side of the lot.
24. The developer shall submit a final stream buffer plan to the Land Development Division for approval prior to issuance of any building permits and obtain permits for the Stream Buffer prior to removal of any mature riparian species within the buffer zones due to construction activities on the site, in accordance with the Section 88-415 requirements if development were to occur on the eastern side of the lot.
25. The developer must grant on City approved forms, a STREAM BUFFER Easement to the City, as required by Chapter 88 and Land Development Division, prior to issuance of any stream buffer permits.
