NA

Other Impacts

1. What will be the potential health impacts to any affected groups?

NA

2. How have those groups been engaged and involved in the development of this ordinance?

NA

City of Kansas City, Missouri

Docket Memo

3. How does this legislation contribute to a sustainable Kansas City?

This project consists of public and private improvements for an residential development on approximately 16.83 acres of previously undeveloped property. The plat will provide construction of storm water detention facilities. These facilities will reduce the overall storm water volume and attenuate the peak runoff rate to less than existing conditions. The private open space will also retain much of the existing natural vegetation and natural waterways. Runoff from within the development will be conveyed in an enclosed storm sewer system and released into the detention facilities. Common areas will be maintained by the homeowners' association through a covenant agreement. Modern and safe, walkable streets with sidewalks, curb and gutter and street lights will be constructed. New sanitary sewers will be constructed that will minimize infiltration and inflow within the system conveyed to the treatment facility. This development will increase the tax base for the developed lots and will provide ample permanent greenspace within the development.

4. Does the ordinance/resolution include Civil Rights antidiscrimination requirements in compliance with the Code of Ordinances (Chapter 38, titled "Civil Rights")?

NA

5. Has the ordinance/resolution been submitted for review of economic equity & inclusion requirements in compliance with the Code of Ordinances (Chapter 3, titled "Contracts and Leases")?

NA
