6224020014 – Parking, Transportation, and Mobility Services

Ordinance: 260711

Procurement Process- 1st Renewal

The Kansas City Aviation Department Airport Police enforces traffic control and prevention of curbside parking. This contract supports those operations and will provide supplemental work force to conduct traffic control and enforcement.

- 6224020014 was publicly solicited and awarded in June 2024. Two suppliers responded and Laz Parking Midwest, LLC was awarded.

- The contract is a one-year contract with five one-year renewal options, this Ordinance requests the approval of the 1st renewal option at a cost of $1,942,827.82.

Curbside Traffic Management and Traffic Control

- MCI served approximately 11.9 million passengers in 2025.
- Traffic control is provided 365 days a year through multiple shifts covering the arrival, departure, and commercial curbs from 9:00 AM to 2:00 AM.
- 16 personnel and 2 supervisors are on sight daily for this operation.
- Traffic control for these areas is essential to keep curbs open for passenger loading and unloading and to prevent vehicle traffic from backing up beyond the terminal entrance.
