ORDINANCE NO. 220729

Amending the Plaza Bowl Overlay, which was created by Committee Substitute for Ordinance No. 190100, which includes use and height regulations for the area generally located on the south and north sides of W. 47th Street (extending northerly to the north side of W. 46th Terrace), between Madison Avenue on the west and J.C. Nichols Parkway on the east, in order to establish standards for granting deviations..

BE IT ORDAINED BY THE COUNCIL OF KANSAS CITY:

Section A. That Chapter 88, Code of Ordinances of the City of Kansas City, Missouri, commonly known as the Zoning & Development Code, is hereby amended by approving the Special Character Overlay District, for the area generally located on the south and north sides of 47th Street (extending northerly to the north side of 46th Terrace), between Madison Avenue on the west and J.C. Nichols Parkway on the east, said section legally described as:

The Plaza Bowl Overlay District is outlined on a map marked Section 88-20A1186, attached hereto and made a part hereof, is hereby adopted as part of an amendment to the zoning maps constituting a part of said chapter and in accordance with Section 88-20 thereof.

Section B. That the regulations applicable to property within the Plaza Bowl Overlay District are as follows:

Plaza Bowl Overlay District

Background

Since its development nearly 100 years ago, the Plaza area has been an important internationally recognized historic area due to the unique architecture and design, mix of thriving residential, commercial, cultural and educational uses, continuous care by its property ownership, and city-wide public interest in maintaining this cultural icon.

The Midtown / Plaza Area Plan (MPAP) recognizes that the Country Club Plaza is a significant community asset and a regional business, residential, cultural, and educational district that requires careful consideration of permitted uses and building heights in order to strengthen and further complement the existing built environment.

After years of effort by property owners, residents, consultants, and staff, the revised Midtown / Plaza Area Plan was adopted in January 2016. An immediate implementation measure of The Plan was to codify the building height recommendations of the Bowl Concept in the Country Club Plaza and adjacent area.

Prior to the 2016 adoption of the MPAP, a similar recommendation was made in the original Plaza Urban Design & Development Plan which was adopted in 1989. The Bowl Concept emerged to protect the Plaza area. The original mixed use area, developed in the 1920's and 30's, included retail, office, and residential uses. Low-rise buildings formed the base or "heart" of the historic area, and higher buildings were gradually built on the hills surrounding it.

The original Plaza Plan and the 2016 revision both recommend continuation of this design concept, referred to as the "Bowl Concept," through the regulation of building heights in the Plaza area. For certain properties on Main Street, building heights have been established through the Main Corridor Overlay. For properties within the Country Club Plaza, height and use regulations are established by a 2016 text amendment to the Zoning & Development Code that was enacted at the request of the previous owner of the Country Club Plaza and continues to be supported by the current owner. The Plaza Bowl Overlay Height and Use Boundary map depicts appropriate building heights for locations within the overlay.

Plaza Bowl Overlay

The Plaza Bowl Overlay focuses on the "base of the bowl" - those areas immediately adjacent to the Country Club Plaza shopping area. The Bowl Concept consists of a series of roughly concentric circles around the base of the Plaza. There are approximately 660 parcels within the boundaries of the entire Bowl Concept and around 350 owners of those parcels.

On March 13, 2017, the Midtown / Plaza Area Plan Implementation Committee created the Bowl Implementation Committee. City staff suggested some initial phases and provided mapping to show impacts to specific properties. After several months of study, the Committee decided to phase implementation and focus on the next concentric circle of land adjacent to the base of the bowl (the Plaza) along 47th Street. This overlay, following the 2016 text amendment and the Main Corridor Overlay is the next phase of the implementation of the MPAP for the Plaza.

The proposed overlay would:

- i. Designate building heights for each parcel.
- ii. Specify whether land uses are permitted outright, allowed with special use permit approval, or prohibited.

1. Purpose

The purpose of the Plaza Bowl Overlay is to establish land use regulations and limit building heights for an area generally located on the south and north sides of 47th Street (extending northerly to the north side of 46th Terrace), between Madison Avenue on the west, and J.C. Nichols Parkway on the east. These restrictions may be more prohibitive than those of the underlying zoning.

According to the Midtown / Plaza Area Plan, the primary goal of the plan and overlay is to:

Preserve the original and unique planning and urban design concepts that embody the Country Club Plaza and surrounding area. The Bowl Concept is one of the most important urban design concepts for the area which describes the conscious transition of building heights from the low-rise buildings of the Country Club Plaza to buildings of increasing height as they are placed on the surrounding hills.

This overlay is also intended to:

Maintain and promote the economic vitality of the area;

Encourage preservation of the area's rare, unique, historical and distinctive character; and,

Stabilize property values and reduce investment risks;

Establish known ground rules for development, redevelopment and infill projects that developers, the city and the community can follow and base investment decisions on; and

Otherwise promote the health, safety, morals, and general welfare of the city.

A majority of the Plaza is currently zoned for heavy commercial development, specifically B4 (Heavy Business/Commercial), which permits a wide variety of commercial and light industrial uses, some of which would not be appropriate for the area.

Additionally, property zoned B4 has intensifier of "-5", which equates to no maximum height requirement, (unless dictated by the maximum floor area ratio of 6.0.) The map would establish maximum, and in some cases, minimum building heights. A zoning overlay may be more restrictive in regard to land uses and building heights than the B4-5 allowances.

Certain properties within the overlay are zoned UR (Urban Redevelopment), for which a specific development plan has been approved by the City Council. Until such time the UR plan is amended, or the property is rezoned to a different classification, the UR plan remains intact.

Other properties currently zoned R-0.5 or B-1, if redeveloped, may necessitate rezoning and submittal of a development or project plan or require special use permit approval. At that time, height restrictions of the Plaza Bowl Overlay would apply.

Applicability

Compliance with provisions of the Plaza Bowl Overlay is required as follows:

a. Regulations of the Plaza Bowl Overlay apply to all properties within the boundaries of the overlay as shown on the map. The Plaza Bowl Overlay establishes certain land use regulations and height restrictions that may vary from the underlying base zoning for the properties in the Plaza Bowl Overlay District. All provisions described below as regulatory in nature have the same force and effect as, but may be variations from, those set forth in Chapter 88, Zoning & Development Code.

b. Provisions are applicable as follows:

i. New Development: Full compliance with provisions of this overlay applies to all new buildings constructed within this district.

ii. Building Enlargements and Expansions: Full compliance with provisions of this overlay applies only to the enlargement or expansion area.

iii. Change of Use or Occupancy: Compliance with use standards apply whenever the use or occupancy of a property changes.

c. Permits may be issued for previously approved site-specific development plans that were approved prior to the effective date of the Plaza Bowl Overlay, in accordance with the previously approved plan and without compliance to the Plaza Bowl Overlay. Compliance with use regulations shall be required.

d. In consideration of the bowl concept -- which analyzed unique features of the area including natural topography, view corridors, and the built environment -- deviation to 88-610 Nonconformities is offered. All existing structures whose heights exceed those prescribed by the Plaza Bowl Overlay as of the date of ordinance approving this overlay will be allowed to remain. For such structures, permits may be issued for replacement or reconstruction to the height existing; provided, that the envelope of the existing building shall be retained in regard to, but not limited to, building form and scale, including footprint, setbacks, and step-backs. Compliance with the use regulations of the Plaza Bowl Overlay shall be required.

e. Existing development on properties zoned UR shall comply with the approved UR development plan and shall therefore be exempt from the regulations of this document. However, if property is rezoned or an amendment to an approved development plan is required, regulations of this document shall be met.

f. Pursuant to Chapter 88, Code of Ordinances, 88-517 Development Plan Review and Approval, 88-518 Project Plan Review and Approval, and 88-520 Master Planned Developments, and notwithstanding Sec. 88-517-09-C, the City Council may approve reasonable deviations to the height limitations set forth by this overlay, in conjunction with an approved development plan or project plan, if the proposed use is consistent with the zoning of the property as allowed under this overlay district ordinance.

In acting on a request for a deviation, the City Council must consider the following factors: whether the proposed additional height is based on reasonably necessary and demonstrated need or hardship due to life safety, engineering, construction or restoration reasons and otherwise not attributable to conditions created by the applicant; and (ii) whether the proposed additional height will adversely affect any neighboring or nearby properties.

In no event shall the City Council grant a deviation in excess of the lesser of 10% of the height limitations set forth in this ordinance, or six feet, or which shall add any occupiable floor space.

Any deviations from the height restrictions shall be specifically called out as deviations and described on the development plan, project plan or master development plan and will not be considered to be approved unless so stated.

g. Other than as set forth by this overlay, the underlying zoning and the regulations and standards included in Chapter 88, Zoning & Development Code, prescribed for the areas rezoned to this overlay district shall remain unchanged and shall continue to apply.

h. Unless otherwise allowed by this section, provisions of Chapter 88, Code of Ordinances, 88-610, Nonconformities, are applicable.

i. If provisions of this overlay district are inconsistent with Chapter 88, the provisions of this overlay district shall apply.

5. Governance

This overlay district is a Special Character Overlay (SC/O) which is outlined in Section 88-205 of Chapter 88, Code of Ordinances. The establishment of the overlay district is in accordance with the text amendment procedures of 88-510 (to establish the applicable regulations) and the zoning map amendment procedures 88-515 (to establish the district on the zoning map).

This commitment to protecting the Plaza area and guiding new development is supported by the community as well as Chapter 88, Code of Ordinances. Section 88-205-01, states: "Overlay districts are for areas of the city that have unique qualities requiring special treatment or locations where special approaches to development may be warranted. They are established as a means of addressing specific aspects of land use control or development design that transcend base zoning district provisions."

The Zoning & Development Code at Section 88-610-05 - Nonconforming Structures dictates when reconstruction (possibly to a height in excess of that permitted by the overlay) may occur due accidental damage or destruction.

6. Plaza Bowl Overlay Uses

Uses regulated by the Plaza Bowl Overlay are shown in the following table, which will replace the use table for properties within this district.

In order to promote activity at street level, the intent is to encourage development of uses such as retail, restaurant, and similar uses on the ground floor of buildings. These uses typically have points of ingress/egress, transparent storefronts and display windows, outdoor dining establishments, and other uses that encourage activity. These uses will be permitted outright.

Other uses, such as residential, office, and entertainment venues, are not typically active on the ground floors or, due to their nature, require blank walls without fenestration. These uses will require special use permit for some ground level functions. This will allow staff to review proposed design for points of ingress/egress, transparency (windows), interest in facade (to ensure pleasurable pedestrian experience/non-monotonous building wall), etc. Other uses will require special use permit approval due to their nature and effect on adjoining properties.

Finally, certain uses that are not appropriate will be prohibited.

a. PLAZA BOWL OVERLAY USE TABLE

Uses are allowed within the Plaza Bowl Overlay in accordance with Table 120-1, below.

b. USE CLASSIFICATION SYSTEM

Chapter 88, Code of Ordinances, classifies uses into "use groups," "use categories," and "specific use types." These are described and defined in Section 88-805. The first column lists the groups, categories, and types allowed.

c. PERMITTED USES

Uses identified with a "P" are permitted as-of-right in the subject zoning district, subject to compliance with any use standards identified in the final column of the table and all other applicable standards of Chapter 88, Code of Ordinances.

d. SPECIAL USES

Uses identified with an "SUP" may be allowed if reviewed and approved in accordance with any special use permit procedures of Chapter 88, Code of Ordinances, Section 88-525. Special uses are subject to compliance with the use standards identified in the final column of the table and all other applicable standards of Chapter 88, Code of Ordinances.

e. PROHIBITED USES

Uses not listed in the table and those identified with a "-" are expressly prohibited.

f. USE STANDARDS

The "use standards" column identifies use-specific standards that apply to some uses. Compliance with such standards is required regardless of whether the use is permitted as-of-right or requires approval by a special use permit.

Plaza Bowl Overlay Height Restrictions

For buildings located within the Plaza Bowl Overlay, building heights shall be limited to the heights and stories as shown on the Plaza Bowl Overlay maps attached herein.

Section C. That the Council finds and declares that before taking any action on the proposed amendment hereinabove, all public notices and hearings required by Chapter 88, Code of Ordinances have been given and had.

I hereby certify that as required by Chapter 88, Code of Ordinances, the foregoing ordinance was duly advertised and public hearings were held.

Secretary, City Plan Commission

Approved as to form and legality:

Sarah Baxter
Assistant City Attorney
